

University of California, Riverside

August 1, 2001

Gerald Jones
Historical Criminal Research Department
Department of Homeland Security

Dear Dr. Jones,

It was good of you to visit me at my laboratory here at Riverside. It seems clear that our interests are aligned and that a working relationship is in order.

I am happy to accept your most generous offer, with the following stipulations:

My niece, Katarina Zeladny, will accompany me to NRU, and NRU will provide her with the necessary IRS work documents.

Jacob W. Starkey, my current research assistant and PhD candidate, will be given a full scholarship to NRU, and a monthly stipend equal to your highest level of graduate support.

NRU will provide me with at least 8000 square feet of space for my laboratory, office and student work areas. All research areas will be built to my and Mr. Starkey's specifications.

I also understand that I will be a full Professor with tenure, and I will not be required to teach for the first five years of my stay and NRU. I will, however, be able to hire research assistants from the Physics Department as I see fit.

If these stipulations are in agreement with your department, I will look forward to your letter outlining our financial arrangements, HCRD research goals, and details of my move to NRU.

Sincerely,

Dr. Kristoff Zeladny
Professor of Physics
