Objective:

Agents are to obtain a digital record of Premier Krushev at the United Nations on October 12, 1960. Specifically required are pictures and fresh video from an angle never seen before of the shoe banging event.

Pre-initiation

HCRD Agent Jonathon Clark was given 20 hours of briefing related to political climate, current events, and his em or surveillance and intelligence gathering will be tested and followed. Clark is in excellent health. No weapons will be deployed on this hop.

Post Reconnaissance

Clark returned 26 hours and 11 minutes post departure. Subject suffered only minor frostbite to his extremities. He was quarantined immediately. Two MRI full body scans show no signs of transfer interference. CAT scans are normal. Clark was fully conscious upon return and all digital data was intact. Full medical review to follow once Clark has been released from quarantine.
