Dear Annabelle Becks,

Thank you for your letter of 15 October 2008. I understand that you have serious concerns as to whether John Franks is fit to return back to work so soon after his treatment for chemical abuse, and anxiety. There is very little we can do, especially as Mr Franks self-admitted himself.

He is free to walk out of the hospital at any given time, but in my opinion he is of sound state of mind, and just needs time away from the type of work that led to the mental breakdown.

We have made all the necessary preparations in terms of providing adequate out-patient care fro him when he is back in London.

I would be grateful if you could communicate your concerns on this matter in your reply.

Yours sincerely
