Are there factions of good and evil Kladrogs? What do they look like? Where do they live? Do you have any pictures? I'm usually pretty good at reading my classmates and knowing pretty much what they think but I'm stumped here. Are you red? Do they make hamburgers out of them? Do they eat and have room for dessert? Do they have brothers? What is their mission (in ten words or less)? Do they like rocket poppeteer pops? What is the 6th unknown rocket poppeteer flavor?

I would appreciate any help you can give. Thanks, Sonya ☺
