

Dr. Rouke,

Recently I have had the pleasure of reading your thesis paper on the *Flood in Sumer* and I have realized that your work and mine are intertwined. I am currently writing a paper which covers your period of study and I would very much like to discuss it with you.

I do believe that we should meet at your earliest convenience to discuss a possible collaboration between our two fields of study. I will be coming to England next month perhaps we can get together then.

Yours Faithfully

Abdul Jibril
